

ADDENDUM 1. CORRECTIONS TO ERRORS AND OMISSIONS DISCOVERED  
AFTER PRINTING Site Specific Environmental Assessment Rangeland  
Mormon Cricket Suppression Program Idaho EA Number ID-06-01.

Table 1.1 Page 63:

Banbury Springs Limpet (lanx) (E), Bliss Rapids Snail (T), Utah Valvata Snail (E), Idaho Springsnail (E), Snake River Physa Snail (E) NLAA	In areas along the Snake River <del>between C.J. Strike Reservoir and American Falls Reservoir</del> APHIS would utilize a 500 foot buffer for carbaryl bait and a 0.5 mile buffer for diflubenzuron spray. If there are treatment needs within the buffer area, APHIS would consult with FWS on a case-by-case basis to examine alternatives. (From FWS 2003)
